

PR - TF 72 Camino de Chasna - Paisaje Lunar

A new footpath bringing you into the nature and culture of the Corona Forestal Natural Park.

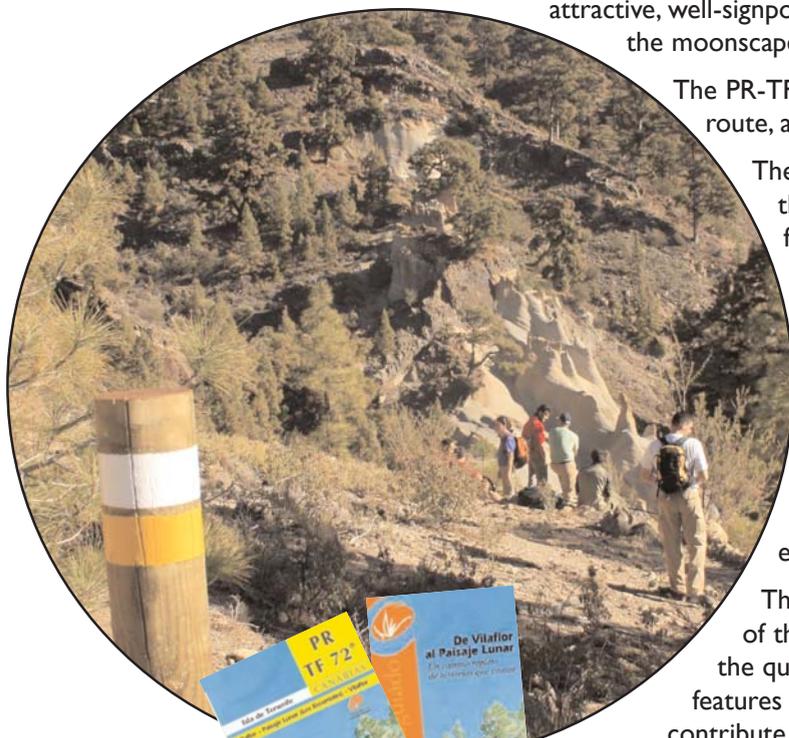

Only a few months ago, the PR-TF 72 was opened in the South of Tenerife. This attractive, well-signposted and safe footpath borders the Paisaje Lunar, the moonscape around the village of Vilaflor.

The PR-TF 72 is part of the Chasna Trail, a 500-year-old route, and starts in the village of Vilaflor itself.

The uniqueness of the landscape adds to the beauty of the walk from the first steps. The Canarian pine forests, matchless across the world, still hold the footsteps of those who daily traversed its woods to make a living.

After approximately 4 miles, the PR-TF 72 reaches a privileged viewpoint, where the moonscape can be admired in its entirety. The access to this area was formerly allowed though the Madre del Agua track; however, vehicular traffic is currently prohibited, with fines ranging from 100 to 1.000 euros.

The PR-TF 72 is signposted following the guidelines of the European Ramblers' Association, guaranteeing the quality and safety of its design. It also offers additional features such as tables and information panels, which contribute to enhance the visitor experience. A topo map and a self-guided walk leaflet is also available for purchase at La Alpizpa (SINPROMI) shops and also at some points of sale situated near Vilaflor square.
